| 10.30-11.30  | A cultural-historical approach to teaching geometry Part 2: the results of field trials  
Stuart Rowlands  
Using discursive psychology in research in mathematics classrooms  
Richard Barwell  
Why do teachers stay?  
Jan Winter and Laurinda Brown  
Structuring students’ awareness of generality in whole class discussion  
Helen Drury |
| 11.35-12.05 | Moving beyond the ‘procedures-first or concepts-first’ question  
Chronoula Voutsina  
Gender, mathematics and identity: an introduction to and critique of Simon Baron-Cohen’s systemiser/empathiser dichotomy  
Melissa Rodd and Margaret Brown  
Primary trainee teachers’ knowledge of parallelograms  
Taro Fujita and Keith Jones  
Developing on-line questionnaires for university mathematicians  
Zsolt Lavicza |
| 12.10-12.40 | Children’s views of mathematics during an early transfer project from primary to secondary school  
Carol Murphy  
Researching mathematics classrooms: moving from ‘insider’ to ‘outsider’ research methods  
Julie-Anne Edwards  
Observing subject knowledge in action: characteristics of lesson observation feedback given to trainees  
Andrew Harris  
What factors influence conviction in mathematical arguments?  
Matthew Inglis and Juan Pablo Mejia-Ramos |
| 1.50-2.50   | Mechanics should be integral to secondary school mathematics  
Stuart Rowlands  
The long-term effects from the use of CAME, some effects from the use of the same principles in Y1&2, and the maths teaching of the future  
Michael Shayer and Mundher Adhami  
Relationships with/in primary mathematics: learning and working with primary teachers  
Jeremy Hodgen and Mike Askew  
Pedagogical sensitivity and procedural thinking: an uneasy relationship?  
Elena Nardi  
Geometry Working Group  
Keith Jones and Taro Fujita |
| 2.55-3.25   | Teaching of multivariable functions with Computer Algebra Systems (CAS)  
Csaba Sárvári  
Subtraction of fractions through the eyes and ears of fifth grade modellers  
Andreas O. Kyriakides  
The company of words: using concordances to develop language in the maths classroom  
Frank Monaghan  
Probing understanding through example construction: the case of integration  
Shafia Abdul Rahman |
| 3.30-4.00   | The role of the hide/show tool in Cabri in the context of the proving process  
Federica Olivero  
Integer instruction: an experimental comparison  
Andreas Koukkoufis and Julian Williams  
Learners’ shifting perspectives on randomness  
Peter Johnston-Wilder |
