## Conference Proceedings Editor's report 2016-17

Following each day conference presenters are invited to write a 6-page paper for the conference proceedings which are published [online](#). Abstracts from the proceedings are published in Research in Mathematics Education (RME).

Conference proceedings	Number of presentations	Number of papers in proceedings	International element
36 (3) Brighton University	23	9	2
37 (1) University of London	34	15	2
37 (2) University of Oxford (+ new researcher's day)	39 (+ 15)	28	6

Many papers submitted to the proceedings require formatting amendments, and a new template has been created this year to clarify what is required, which will be sent out to presenters and made available on the website. A small proportion of papers require substantial revision and support and it has been decided that the society will pay for support in these circumstances, in line with our policy of inclusion and nurturing new researchers.
